Yuxiang Xiong

Academy of Advanced Interdisciplinary Studies, Wuhan University
yuxiang_xiong@whu.edu.cn | Website | GitHub

RESEARCH INTERESTS

Family economics; household decisions and informal insurance; migration; applied microeconomics.

EDUCATION

Wuhan University 2023–present
Ph.D. student in World Economy; expected completion June 2027.
Academy of Advanced Interdisciplinary Studies. Advisors: Zhen Yu and Ling Xiong.

IE University 2023
Doctoral studies in Strategy; withdrew without a degree.

IE University 2022–2023
Master in Applied Economics. GPA: 3.7/4.0; final grade: Excellence.

University of Edinburgh 2020–2021
M.Sc. in Ecological Economics, Merit.

Wuhan University of Technology 2016–2020
Bachelor's degree in Finance. Average: 88.5/100.

University of California, Riverside Extension 2018–2019
Non-degree study.

SELECTED RESEARCH

Childhood Separation and Family Support Following Parental Functional Limitations

Working paper using the China Health and Retirement Longitudinal Study (CHARLS).

- Studies how childhood parental separation is associated with changes in co-residence and other forms of family support when older parents develop functional limitations.
- Reconstructed annual parental residence histories and linked life-history records to panel, child and helper rosters; checked inconsistencies in family relationships and distinguished questionnaire skips from unknown responses.
- Led the question development, design, data construction, analysis and writing, with research discussions and feedback from Yaohui Zhao.

Technical Standards, Trade and Environmental Outcomes in China

Doctoral dissertation manuscript completed. Examines importing-country technical standards, trade adjustment and environmental outcomes in China.

RESEARCH EXPERIENCE

Wuhan University November 2021–August 2022

Research Assistant, School of Economics and Management

- Analyzed data in Stata and R and contributed to research reports on China–U.S. economic relations.

Wuhan University September–November 2021

Research Assistant, Satellite Navigation and Positioning Technology Research Center

- Processed nighttime-light and crop-area data using Stata and ArcGIS for policy evaluation.

TEACHING EXPERIENCE

Teaching Assistant, Wuhan University

Socioeconomic Survey Data Analysis Fall 2025

Instructor: Yaohui Zhao.

Social Field Survey Spring 2025

Instructor: Yaohui Zhao.

Intermediate Econometrics Fall 2024

Instructor: Shihe Fu.

- Helped students diagnose problems in empirical-analysis code and interpret regression results.
- Recommended relevant papers and discussed identification strategies, including the assumptions needed to distinguish causal effects from correlations.

ADDITIONAL RESEARCH TRAINING

Structural modeling workshop and computational economics

- Ongoing participation in Rufei Guo's structural-modeling workshop.
- Study and numerical exercises in overlapping-generations and Aiyagari models, including household saving decisions, borrowing constraints, stationary distributions and general-equilibrium computation.

SCHOLARSHIPS

Marie Skłodowska-Curie Actions doctoral funding 2023

DIEM industrial doctoral network, IE University.

China Scholarship Council full scholarship 2022–2023

Funding for the Master in Applied Economics at IE University.

TECHNICAL SKILLS

Software: Stata, R, Python, ArcGIS and LaTeX.

Research methods: longitudinal-data construction, panel-data analysis, difference-in-differences, regression discontinuity and spatial-data processing.
